## Work Experience

---

### Target Corporation

SOFTWARE ENGINEER INTERN

Minneapolis, MN

May 2020 – Present

- Modernized legacy supply chain store procedures to Spring Boot and Kotlin microservices
- Built, deployed, and maintained a centralized search interface that allowed teams to more efficiently track the movement of products in distribution centers
- Engineered microservices to allow other teams to more effectively and safely access data from our supply chain databases

### University of Minnesota Department of Computer Science

UNDERGRADUATE TEACHING ASSISTANT

Minneapolis, MN

August 2020 – Present

- Collaborated with other TAs and Dr. Mattia Fazzini to administer coursework and analyze class performance
- Hosted office hours to provide 1 on 1 guidance to students seeking help
- Graded various projects, labs, quizzes, and other assignments

### RSM US LLP

TECHNOLOGY CONSULTANT / APPLICATION DEVELOPMENT INTERN

Minneapolis, MN

June 2019 – August 2019

- Consulted with clients on the design and optimization of solutions and products
- Developed a ticketing management system using ASP.NET Core full-stack web application framework
- Implemented a Quasar (Vue.js) user interface for an ERP-based Blockchain traceability solution

### COUNTRY Financial

SOFTWARE DEVELOPER INTERN

Minneapolis, MN

May 2018 – May 2019

- Automated and deployed software using CI/CD pipelines to deliver applications and services at high velocity
- Engineered a Django web app that receives traffic from GitLab CI Jobs and performs actions on their behalf
- Programmed Click command-line interfaces for automation tools using GitLab's REST API

## Projects

---

### SN-GC-Integration

- A Google Chrome extension written in JavaScript that reads scheduled work tasks from ServiceNow and automatically creates Google Calendar events

## Activities

---

### CoderDojo

MENTOR

October 2017 - Present

- Mentoring youth to code, build a website, create an app or game, and explore technology in an informal, creative, and social environment in a free, volunteer-led, community-based programming club
